

With Nexia™, you can do all this...and more.

Open, close and monitor your garage door even when you're not home

Schedule front porch light to turn on and off automatically

Automatically turn on the lights, trigger the siren, and receive an alert when breaking glass is detected

Automatically turn on the porch light and receive an alert when your doorbell is rung

From Nexia: Smoke has been detected in the Hallway

Trigger the siren and receive a text or e-mail alert when smoke or carbon monoxide is detected in your home

Raise or lower the temperature in your home remotely

Remotely view and automatically record what is happening inside your home

Turn outdoor and indoor lights on and off when on vacation to give the appearance that someone is home

Receive alerts when the siren alarm is triggered by motion or an event

Remotely turn lights on, off or dim

Turn on the air conditioning when motion is detected and suspend operation if a window is left open

Get a handle on your energy consumption with scheduling, and use less energy when everyone's away

Control small appliances such as ensuring the coffee pot is turned on at 6am and turned off by 9am on selected days of the week

Turn on lights when motion is detected

Remotely view and record what is happening outside your home

Receive an alert when a water leak is detected in a bathroom, laundry room hot water closet or near the dishwasher

Recall up to 15 pre-programmed automations and modes with the touch of a button. For instance, one tap will shut off the lights, lock the doors, and adjust the temperature as you leave the house

Lock or unlock doors remotely and receive a text message when a door is unlocked
